

Current Used Cell on Wheels (COW) Inventory

Please note that rental requires a minimum 1-month prepayment and proof of insurance with TSS as the loss payee in the amount of the purchase price.

1. **QUANTITY 1 EACH:** Used 60' pneumatic mast COW (model 10-60 mast; 300 lb payload capacity) with galvanized 14'L deck trailer, white shelter:
 - a. 21'L x 8'-2"W x 12'-6" overall e/w (4) pullout outriggers; 10'-6"L x 6'W x 8'H enclosure with 1 air conditioner on the rear next to door (has a separate compartment on the front for a generator which can be quoted separately, 2'-6"L x 5'-5"W x 7'-5"H; usable space in rear compartment is 7'-10"L x 5'-5"W x 7'-5"H).
 - a. 200A Manual Transfer Switch (inside)
 - b. 200A breaker panel (inside)
 - c. Includes standard lights, outlets, alarms and room for (3) racks (not included)

2. **QUANTITY 1 EACH:** New 2019 year-model, surplus 60' pneumatic mast COW with galvanized steel trailer; and all aluminum enclosure shelter (not water tight)
- a. 16'L x 8'W x 12' overall (12'L x 8'W deck) e/w (4) pullout outriggers
 - b. 200A service with 200A Cam-Lok box and 50' Cam-Lok cables
 - c. 200A Kohler ATS with 200A Main Breaker Panel built in
 - d. DDB IOD-46DXC cabinet with 2,000 BTU air conditioner (with 560W heater); 19" mounting, 23RU
 - e. Will-Burt 10.3-60 mast (530 lb payload capacity) with auto lock / unlock system that allows mast to be raised and lowered from the ground with a remote control
 - f. Aluminum antenna mount secured to top of mast and aluminum rack assembly opposite the generator for installing radios
 - g. Onan 12KW generator with only 8 hours on it, equipped with a 91-gallon aluminum fuel tank.
 - h. Custom generator remote control panel designed and built to work with the Onan generator and ATS
 - i. Main control panel with generator remote panel, battery disconnect switch and light switches for all of the LED lights provided

13. **QUANTITY 1 EACH:** Used 100' U.S. Tower motorized lattice COWs, per the following details and photo, **BUILT FOR MORE PERMANENT APPLICATIONS, REQUIRE FULL GUYING WITH GROUND GUY WIRE SET.**
- Used 2017 model MTU3100MDPLM, 100' U.S. Tower motorized lattice tower COWs
 - Galvanized trailer and galvanized 100' tower e/w 450 lb payload capacity
 - Three way antenna mount assembly secured to the top
 - (1) - (2) Toolboxes on the front of deck.
 - (2) Stabilizer jacks on the front.
 - (2) Rear outriggers that swing around with jacks on each
 - (7) Level, (3) way guy wire kit e/w (9) ground stakes provided or Jersey concrete blocks
 - Purcell PPC-200, 200A manual transfer switch e/w breaker panel, Cam-Lok connectors

14. **QUANTITY 4 EACH:** Used 80'-89' motorized lattice COWs, (2) units are shown below:
- a. ~28'L x 8'-6"W x 12'-13'H
 - b. (2) 7,000 lb axles providing a 14,000 lb GVWR (typical)
 - c. An all steel trailer, steel tower base and (4) outriggers (some galvanized)
 - d. 3-sector antenna mount secured to the top of the tower; galvanized guy wire kit

Telecom Site Solutions, LLC

3905 Hedgcoxe Rd #251171 • Plano, Texas 75025

888.779.9069 toll free • 855.244.3763 fax

15. **QUANTITY 1 EACH:** Used 60' motorized lattice COW, per the photo below:
- a. 25'x 8'W x 12'H
 - b. (2) 7,000 lb axles providing a 14,000 lb GVWR
 - c. An all galvanized steel trailer, steel tower base and (4) outriggers
 - d. 3-sector antenna mount secured to the top of the tower
 - e. Larger jack plates and galvanized guy wire kit

16. **QUANTITY 1 EACH:** Used 150' TowerWorx lattice COW per photo below; overall dimensions are 43'L x 8'-4"W x 12'-9"H and estimated weight of 18,000 lbs (GVWR of 24,000). It includes the following items:
- a) Used tandem dual axle trailer (all painted black) with pintle eye hitch; 12K lb axles; 24K lb GVWR
 - b) Used galvanized 150' tower equipped with black painted tower base and outriggers, with 6-sector galvanized steel RF antenna mount on top of tower
 - c) Used Multiquip 12KW generator (model TLG-12SPX4; 551 hours) with a used 50 gallon fuel tank; this generator is used for powering the tower itself
 - d) Used 100A ASCO ATS, 50A utility twist lock and 50A disconnect breaker
 - e) Used DDB cabinet, 50"H x 25"W x 34"D (model OD-50DDC) installed onto the front deck, equipped with 50A breaker panel and Ice Cube air conditioner (no visible rating; believe it is 4,000 BTU based on its physical size)

17. **QUANTITY 1 EACH:** Used Small Peak 60' COW per the photo below; NOTE: all radios, RF antennas, RF cables and 2 cabinets will be removed:
- a. 20'-6"L x 8'-6"W x 13'-3" overall e/w (4) pullout outriggers
 - b. Bumper pull trailer equipped with (2) 7,000 lb axles providing a 14,000 lb GVWR
 - c. Estimated 60' Peak hydraulic mast; 2,500 lb payload capacity
 - d. 200A Cam-Lok panel for external power, mounted onto side of MTS
 - e. 200A Manual Transfer Switch with distribution breakers secured behind platform
 - f. Includes standard lights, outlets, alarms, RF antenna kit, galvanized guy wire kit

18. **QUANTITY 1 EACH:** Used Champion 60' COW per the photo below; NOTE: all RF and other equipment inside shelter, RF antennas and RF cables will be removed:
- a. 27'L x 8'-6"W x 9'-10"H e/w (4) pullout outriggers; and 13'L x 8'W x 8'H enclosure with 2 air conditioners on the rear
 - b. Bumper pull trailer equipped with (2) 15,000 lb axles electric brake axles (30,000 GVWR) with pintle eye (as equipped) or 2-5/16" ball coupler
 - c. Estimated 60' hydraulic mast; 2,500 lb payload capacity
 - d. 200A Cam-Lok panel for external power with Cam-Lok cables
 - e. 200A Automatic Transfer Switch (inside)
 - f. 200A breaker panel (inside)
 - g. Includes standard lights, outlets, alarms, RF antenna kit, galvanized guy wire kit and equipment racks

Telecom Site Solutions, LLC

3905 Hedgcoxe Rd #251171 • Plano, Texas 75025
888.779.9069 toll free • 855.244.3763 fax

19. **QUANTITY 2 EACH:** Used Champion 60' COW per the photo below; NOTE: all RF and other equipment inside shelter, RF antennas and RF cables will be removed:
- a. 30'L x 8'-6"W x 9'-10"H e/w (4) pullout outriggers; and 13'L x 8'W x 8'H enclosure with 2 air conditioners on the rear
 - b. Includes large platform with painted steel storage compartments on the front
 - c. Estimated 60' hydraulic mast; 2,500 lb payload capacity
 - d. Tractor towing required
 - e. 200A Cam-Lok panel for external power with Cam-Lok cables
 - f. 200A Automatic Transfer Switch (inside)
 - g. 200A breaker panel (inside)
 - h. Includes standard lights, outlets, alarms, RF antenna kit, galvanized guy wire kit and equipment racks

Telecom Site Solutions, LLC

3905 Hedgcoxe Rd #251171 • Plano, Texas 75025
888.779.9069 toll free • 855.244.3763 fax

20. **QUANTITY 2 EACH:** Used Sprint CUP COW equipped with 50' Will-Burt pneumatic mast; all RF and other equipment inside shelter, RF antennas and RF cables will be removed:
- a. 28'L x 8'-6"W x 12'-2" with 2 air conditioners on the front
 - b. (1) Model 9-50; 50' Will-Burt mast with roof hatch; 530 lb payload capacity
 - c. Tractor towing required
 - d. Kohler 50KW diesel generator in a lower, front compartment
 - e. 200A Cam-Lok panel for external shore power with Cam-Lok cables
 - f. 200A Automatic Transfer Switch (inside)
 - g. 200A breaker panel (inside)
 - h. Includes standard lights, outlets, alarms, RF antenna kit, galvanized guy wire kit and (1) Ericsson 4-post radio cabinet, (1) battery / power rack, and (1) double wide RRU rack that allows mounting on both sides

21. **QUANTITY 2 EACH:** Used Fort Worth Tower (FWT) 124' COW; NOTE: all RF and other equipment inside shelter, RF antennas and RF cables will be removed:
- a. 43'-3"L x 8'-6"W x 10'-10"H e/w (4) pullout outriggers; and 20'L x 8'W x 8'-10H enclosure with 2 air conditioners on the rear, port panel and door on the curbside
 - b. 124', 8-section tower assembly that must be assembled on site; including a guying analysis showing an ~ 750 lb payload capacity with guy wires secured to concrete blocks
 - c. Tractor towing required
 - d. 200A Generac automatic transfer switch (inside) with no connectors for utility or generator connections (hard wired)
 - e. 200A breaker panel (inside)
 - f. Includes standard lights, outlets, alarms, RF antenna kit, galvanized guy wire kit and includes (6) 4-post aluminum equipment racks and (1) steel battery / power rack

22. **QUANTITY 5 EACH:** Used Glen Martin 42' manual crank up telescoping tower COW, built for rooftop deployments, including the following items (does not include the RF equipment described below):
- a. 10.5'L x 6'W trailer deck on a single 3,500 lb axle; overall footprint with (4) pullout outriggers and 12'L tongue; 18'L x 14'W
 - b. 53' manual crank up tower; raised to 40'; 42' overall height from the ground
 - c. (4) Ratchet guy wire strap assemblies
 - d. Includes a wind analysis report for 40' deployments per photo below; equipped with up to ~165 lbs of payload; with (3) of the antennas shown in photo and (6) ½" RF cables; with guying shown in photo; offering a wind survival of 71 mph
